

ESTABLISHED 2004

Specialising in thermal imaging of electrical switchboards and equipment

Preferred sub-contractor to Electrical Companies – Contractors can be confident that we only provide a thermography service and will not encroach on their work or clients in any way, whilst having the necessary experience to advise them.

EQUIPMENT

We use 'FLIR' Thermal Imaging cameras – the world leaders in Infrared camera technology.

Our equipment produces images that meet the standard required by the major insurance companies.

REPORTING:

Reports are prepared using the 'FLIR Professional Reporter Software' and produced in bound A4 copy, CD and emailed in electronic format to requirement.

EXPERIENCE IN:

- Sawmills
- Municipal Buildings
- Food processing
- Waste water treatment plants
- Freezing Works

- Coolstores
- Hospitals
- Masonry fabrication
- Drilling
- Tertiary Institutions
- Steam Traps
